“Everything changes so quickly, and what is state of the art one moment won’t be the next. Adaptation has to be ongoing – we have to know and accept this. These are transient times.”

Charlotte Perriand

Furniture designer and architect (1903-1999)

— **T**he world is in a constant state of change, we can only agree with the esteemed designer Charlotte Perriand. This truth holds just as much today as it did yesterday—and will continue to do so tomorrow. There is no such thing as a static state; everything is in constant evolution. Some of these changes are known as fashion or trends, and we remain ever aware of them.

At present, many people are rediscovering the impact that handles and knobs can have, not only in creating visual effects but also in expressing style and personality. Can a handle really have charisma? In our view, absolutely! Both visually and physically, they play a crucial role in furnishings, often influencing us on a subconscious level.

This makes the topic all the more intriguing. Explore the distinct visual character of the various models featured in this brochure. We would be thrilled if you chose to experience these handles up close and truly grasp their essence—quite literally.

Ready? Let's get to it:

— H2510

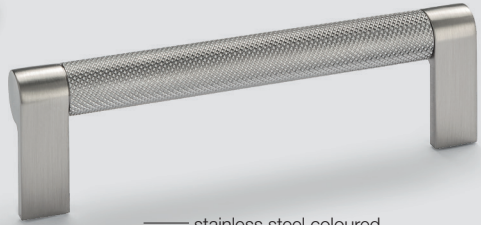

Haptically appealing with subtle aesthetics.

———— Intersection, addition, and subtraction - these are the foundations of this innovative design, influencing both the handle and the knob. Here, both appearance and feel play a vital role. The knurled surface blends visual appeal with enhanced grip and robust material resistance.

Subtle and functional.

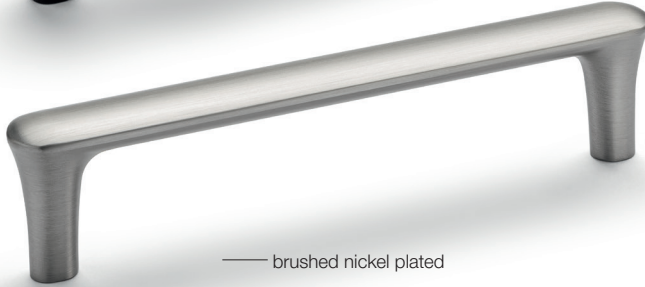

—— You notice it straight away: it creates a minimalist overall impression, with subtle, organic curves. The fluid outline of the handles has been designed to provide a super-soft feel and grip, while also producing an alluring luminous reflection.

A truly tangible sense of well-being.

Lightweight, with a reliable grip.

— The upward curve of the tips is reminiscent of the roof ends of pagodas—or perhaps the graceful sweep of a swan’s neck. Whatever the inspiration, it makes a strong impression. Lightweight yet robust, beautifully combined with elegance.

An impressive sensory experience.

———— The desire for individuality is a modern aspect of luxury. You want your own home to be homely, unique and authentic. A place to retreat to with unique items whose value increases the longer they are with us. Like these elegant handles, which combine modern aesthetics with tactile characteristics. The striking knurling structure is both an eye-catcher and sensory experience which remains in the memory.

H2320

Modern elegance.

— A modern interpretation of the classic furnishing style. The gentle, oval curves are pleasing to the eye, and turn the home into a harmonious and cosy feel-good oasis. The soft, convex back provides a pleasant grippiness. The concave front conjures up fascinating light reflections in the room. The furniture fronts shine with a new glossiness.

The art of minimalism.

—— Modern and timeless, like the Scandinavian style of living. At first glance, the overall shape is plain, with a straightforward and clear design.

The conical shape gives the handle and the thumbturn a striking character, and the aura of being something special. This is how the design classics of tomorrow are created – visually striking and with reliable functionality and quality.

Unique retro chic item.

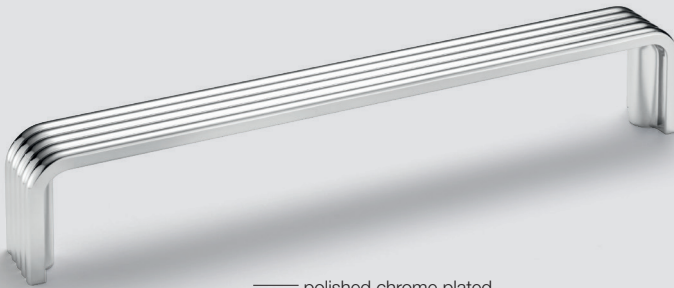

— Its linear structure is reminiscent of the velvety surface of corduroy, and the style-defining design of the 1970s. Nevertheless, the charismatic handle is an absolutely contemporary design. Its pleasant feel makes a significant contribution to your well-being, and has a power that isn't evident at first glance.

Living in style.

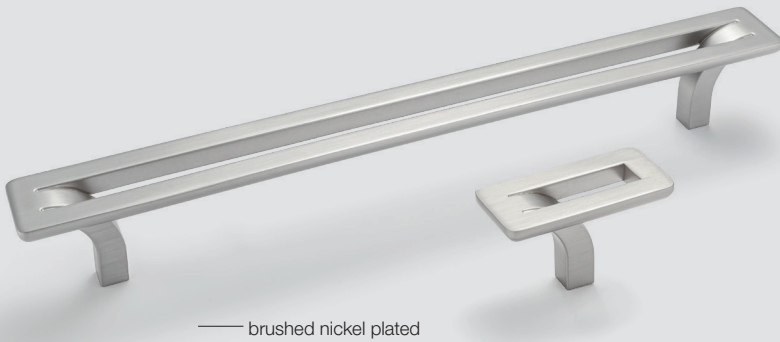

———— They are the gems that turn furniture into icons, and combine traditional craftsmanship with innovative design.

These precious items were created with the inspiration of the image of a sheet of paper whose neatly cut-out frame has been bent backwards.

Unique, distinctive, and elegant.

If pebbles were handles.

— Nature is a wonderful source of inspiration for designers. Inspired by the shape of smooth, round pebbles, a handle collection with maximum sleekness and comfort has been created. Without corners and edges, but sleek and elegant, this handle combines the restrained minimalism of the North with organic design.

Nouveau art déco I —

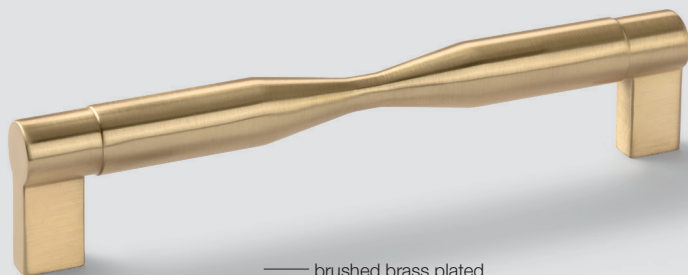

Its panache and curves are a reinterpretation of the wonderful Art Deco era. Visually, it is a successful reminiscence of this time. Haptically, it's simply an experience. It makes furniture surfaces shine in a new light.

— H1925
